

To whom it may concern,

I definitely recommend Mateusz Karpiński as an SEO specialist in your company. I have had the pleasure of working with Mateusz for the last 9 months and I'm impressed by his dedication to work and his ability to both SEO and UX.

Mateusz has demonstrated an exceptional ability to think outside the box, which allowed us to find accurate solutions for our campaigns. His unique approach to problems and the ability to discover new areas of optimization improve the visibility of clients' websites in search results.

One of Mateusz's most important advantages is his experience in the field of user interface (UX), as well as the ability to create new mockups and navigation structures of websites. This experience made client websites easier to understand and user-friendly, which led to more conversions and positive feedback from our clients.

Moreover, Mateusz is an experienced team player and an expert in his field. His ability to collaborate and communicate with other departments such as Account Management and the Content Team was essential to achieving our business goals.

I believe that Mateusz will be a perfect complement to your SEO team and will offer invaluable value of his talent, experience and commitment. I have full confidence that Mateusz will contribute to the success of your company by continuing his excellent work in the field of SEO, UX and mockup design.

Please feel free to contact me if you have any questions or need any additional information. I'm at your disposal to provide any assistance.

Yours faithfully,

Filip Ruprich
